

C# / .NET Core Developer

Be part of a unique growing organization with lots of energy and fascinating challenges!

Pedalheads is a 30-year-old Vancouver based provider of innovative swim, bike and multi-sport programs for kids across North America. Our delivery of high quality camps and lessons that promote kids' health and development has earned us a reputation of excellence in the communities that we serve. This is a fantastic opportunity to contribute to the evolution and integration of our information systems, web apps and online tools and to be involved with all aspects of technology-focused continuous improvements within the organization.

Working under the guidance of our Senior Developer you will:

- Work on and support our website and e-commerce operations.
- Optimize our customer facing and administration websites deployed on the Azure cloud platform.
- Develop and launch technology solutions that support our camp operations
- Work with business unit owners to develop technology solutions and identify areas of improvement that will support evolving business needs.
- Work with third party development partners and service providers
- Develop API's between our home-grown e-Commerce/Registration system and downstream applications that support Accounting and Marketing activities.
- Respond to ad-hoc query and reporting requests

We are looking for 3-4 years of experience in the following areas:

- HTML/CSS/ JavaScript
- C#/ASP.NET Core
- SQL Server
- Azure/Dev Ops
- Office 365/Visual Studio/VS Code

These are some nice to have skills

- Entity Framework
- Experience with e-Commerce web applications
- Familiar with mobile application development
- API development
- Business Intelligence / Data Warehousing

Why work with Pedalheads?

We are a growing and dedicated team supporting a high growth business and your contributions will be both significant and highly valued. As a member of this team, you will be an integral part of our growth vision and strategy. We are looking for individual that can grow with us while being a strong resource for everything web, e-commerce and application development. You will get to work across all parts of the company in the course of completing your projects; marketing, accounting, operations, and customer service. We work in a fun, entrepreneurial and casual environment with a high level of employee engagement and interaction. We are community-minded and passionate about the programs we deliver.
